INTERNATIONAL TIMES FROM SINGAPORE

WORLD TRAVEL GUIDE

UMTC Travels

LOCAL TIME means Singapore time:

When Singapore is at 12 noon, the time differentials from other major cities of the world are shown as above. Singapore is 8 hours ahead of the Greenwich Mean Time (+ 8 hours on GMT).

LEGEND :

***Day behind :** Subject to seasonal changes which may affect time differentials, especially during summer in North America and Australia when time may be set one hour ahead of their local time.

1. The surface of the Earth is divided into 24 time zones. Each zone represents 15 degrees of longitude or one hour of time.
2. The world's time zones start at the Prime Meridian or Greenwich Meridian at '0' degree longitude. The passage of time follows the path of the sun moving in a westerly direction so that countries to the east of Greenwich Meridian are ahead of Greenwich Mean Time (GMT) and countries to the west are behind (Singapore time) Greenwich Mean Time.
3. 00.00 means 12.00 midnight or 12 hours behind Singapore time.
